# JENNIFER LIVINGSTON

## User Experience Designer

## PROFILE

I'm a certified UX Designer based in the Bay Area with 8 years of multi-disciplinary design experience. I lead cross-functional teams to solve complex design problems and execute multi-faceted projects. I thrive in an environment that is design-driven and collaborative, drawing on my attention to detail, organizational skills, creativity, and ability to communicate with a wide range of stakeholders. My background in landscape architecture and studio art allows me to navigate users' visual and spatial experiences with ease.

## EXPERIENCE

### FREELANCE • Remote • UX Designer

2019-present

REFAB: mobile & desktop apps that connect users with home improvement pros

- Provide end-to-end UX design, including user research, user testing, and prototyping
- Use methods such as affinity mapping, card sorting, and site mapping to organize data

FLUENCI: mobile app that helps user study new languages in multi-media

- Conduct competitive analysis, user research, user testing, prototyping, and UI design

TOAST: responsive web app that helps users find a home they love

- Complete UX/UI design including user personas, visual concepts, prototypes, and mockups

Nonprofit Collaboration: access to multi-media content

- Work with a diverse team, including front end developers, to design and launch a website featuring podcasts and videos

### LUTSKO ASSOCIATES • San Francisco, CA • Designer + Project Manager

2018-present

- Lead cross-functional teams to execute complex design projects
- Work directly with clients and consultants to define design direction and outcomes
- Develop design iterations from concept through details, specifications, and final execution
- Manage multiple projects, deadlines, and team members daily

### MSLA • Berkeley, CA • Designer

2015-2018

- Developed design iterations from schematic concepts through detailed execution
- Coordinated projects and deliverables with cross-functional teams
- Worked closely with other designers and engineers to solve design problems

### PWP Landscape Architecture • Berkeley, CA • Design Intern

2014

- Collaborated with design team to develop illustrative concept drawings and diagrams
- Worked with marketing team lead to produce proposals and collateral

### UVA School of Architecture • Charlottesville, VA • Teaching & Research Assistant

2012-2015

- Researched, illustrated and digitally mapped and modeled a range of landscape typologies
- Developed independent research projects and methods
- Presented lectures, critiqued student work, lead weekly discussions
